Plant a child, get a lemon, that's what a lot of people seem to be afraid of these days. But if you plant a flowering stink cactus, you get a flowering stink cactus, and maybe that's why the plant biz has tripled in two years. After all, you can talk to plants and they can't talk back; they don't wear out expensive shoes; and if they give you a pain in the neck you can just chuck 'em. These are but some good reasons for you to consider fathering houseplants, and not just philodendrons but exotic little babies that need tender loving care and fluorescent tubes to grow up big and strong like you.
